

DECENTRALIZING MINING TOGETHER

NODERUNNERS MINING POOL

Noderunners

POOL.NODERUNNERS.NETWORK

Noderunners run miners too! If you like more decentralized mining please consider to mine with the Noderunners Mining Pool. Be aware: This is a SOLO pool. Join the lottery!

HOW TO: SET UP YOUR BITAXE

Connect your Bitaxe to the power supply and wait a moment for it to boot.

Start your web browser and open the IP address shown on the screen of the Bitaxe.

Head over to settings on the top left of the screen.

Enter your wifi data.

In the field "stratum URL" you put in "pool.noderunners.network" and in the field "stratum port" you type in "1337".

The stratum user is filled with the bitcoin address you want the rewards to be sent to. Additionally you can add a dedicated worker name by adding a "." after your bitcoin address followed by the worker name.

Save the settings and restart your Bitaxe.
